Don't bet on elections. Aside from the moral principle involved, it is foolish to gamble on a subject where your enthusiasm impairs your judgment. If your party wins there is joy enough in the victory; if your party loses, why give your opponents the double happiness of a party triumph and your money besides. Instead of risking your earnings on a wager, contribute what you can to the campaign fund.

The following note was picked up in the Richmond postoffice a few days ago: "Dear B—, the reason I didn't tell you when I luffed at me yesterday in the post-office was because I have a bile on my face, and can't tell, for if I did it would hurt; but I love you, your sweet thing, bile or no bile, luff or no luff, you know that."—Richmond Register.

A Vassalotti girl fell out of a buggy and was all mused up. When she gave her fellow a story stare and said: "You'd better go to Midway and learn how to take a girl out riding. Them the boys let the girl drive and hold her in with both hands." The youth looked so ashamed that the horse blushed.

Whom did Adam marry and when did he marry her? One Eve. What was her bridal dress? Barely nothing. Not even a ribbon? No, she had no need of one; she was a rib-bone herself. When Adam and Eve were in the garden doing business, what time did they commence picking apples? In the fall. What was the first step they took in the sugar business? Raisin' Cain. Wife did not Cain make good sugar? Because he wasn't Abel. Who was the wisest man? Knower (Noah). What did he know? He knew enough to come in out of the rain.

QUEER, ISN'T IT?
Madam Rumor has gotten to be so soft upon the matrimonial question, that it's a young lady gets a handsome wrap, or a dress, or if the interior of the house undergoes some changes, then is

whispered, "she is going to get married soon." Or if a single man or a widower smiles to a young lady on the opposite side of the street, or happens in her home to spend a few leisure hours then the old Madam, not taking the time to open the front gate, bounds over the fence, and with breath exhausted, tell the nearest neighbor that "Mr. Jones has actually called on Miss Smith and the wedding will take place in the near future," and then adds with a long breath, "but for goodness sake don't say I told you." That is about the way half of the gossip originates. If a fellow wants to "spark" a girl and hold her hand in his, that should not disturb any one, but the house cat on whose foot they may occasionally

One is astonished nowadays to find a goodly portion of the women on the streets with their shoes laced with corset strings in varying hues of red, white and blue. This silly fad originated with a member of the "four hundred" in New York, who happened to find herself short of shoe laces one morning and utilized a white corset string in a moment of dire necessity. An intimate friend happened in unexpectedly that morning, and being of an observing turn, noticed the innovation and appeared on the streets next day with red laces in her shoes. From this the foolish fashion started.—Ex.

When thy daily toil is over, and the sun is going down, you are ready then to read the news that's going on in town. If you miss the weekly paper, here's a hint, "I will make you smile; perhaps you'll find it on your daughter, for the bustle's back in style. When you wash your face in soapsuds and you're looking for a towel, while the soap is in your eyes and you start to swear and howl; wipe your face upon your sleeve and remember all the while, that the towel is back in style. Now there's no use getting angry and it does no good to swear, if your Sunday shirt is missing and you've nothing new to wear; try your hardest to look pleasant, do your best to wear a smile, and remember when you miss things that the bustle's back in style.

Taylor's Partner May Be Sent to Kentucky.

The Indianapolis Sentinel says: "Merrill Moores, Deputy Attorney General, whom it is reported, Gov. Durbin has decided to send to Kentucky to personally investigate the shooting of Governor Goebel before the Indiana Governor will give his answer to the demand for the extradition of Taylor and Finley, the Kentucky fugitives, is the law partner of W. S. Taylor, one of the men for whom requisition has been made.

"The injustice of appointing Moores to investigate a matter in which his law partner is so deeply interested is being unfavorably commented on by attorneys and others familiar with the facts. Moores' connection with Taylor is known to Gov. Durbin."

ANNOUNCEMENT.

We are authorized to announce H. H. Wilson, of the Montgomery Precinct, as a candidate for the office of Justice of Montgomery County, subject to the will of the people.

LET DUBBIN ANSWER NOW.

Under the above caption the Indianapolis (Ind.) State Sentinel has the following:

Governor Durbin, instead of saving himself from the contempt of all law-abiding, murder-hating citizens through his procrastination, is merely emphasizing the lawlessness of his course. While there never has been a time when an Indiana governor has had the right to violate the constitution by refusing to honor the requisition of the Kentucky executive, the excitement which immediately followed the cowardly crime furnished a very plausible pretext. Now there is absolutely no excuse for protecting the refugees. The question of innocence or guilt is something with which Governor Durbin has no just concern. If he really desires to do his plain duty it is enough for him that the most prominent, law-abiding citizens of an old and friendly commonwealth have reasons to believe that Taylor and Finley knew something about the conspiracy and have proceeded in the lawful way to secure an investigation. His present course therefore is not only an insult to the people of Kentucky, but is an outrageous misrepresentation of sentiment in Indiana.

When the requisitions were presented. He knew—for he is an intelligent man—that it was his duty to honor the requisitions without delay. He knew that public sentiment was overwhelmingly against the anarchistic policy to which some few shysters in the republican party have pledged aim. Hence his present delay in the misplaced hope that the people will forget all about the requisitions having been presented. The very opposite effect has been the result. The shameful failure of an Indiana official to execute the law according to the constitution and to discharge his duty to society has been the chief topic

conversation out in the state during the last ten days. The criticism of broad-minded and conservative republicans outside the ring has been as severe as that of the democrats. Republican papers are rising above the consideration of petty politics and demanding the execution of the laws.

If Governor Durbin has already determined upon his decision—and every one knows that he has—let him make his announcement now.

The State Sentinel does not miss the mark. There is a constitutional policy between States by which no criminal is allowed to take hiding in another State. It is termed a requisition. The only question is this: Who is it that has asked for a citizen in hiding in another State, and if a Governor or another authority it becomes the duty of the Governor upon whom the requisition is made to turn the refugee over to the authorities from the State from which he has fled. There is no alternative. Governor Durbin must obey the State laws or himself become a subject of remonstrance and impeachment.

Sections 3580 to 3660, inclusive, of the Kentucky Statutes, being a part of the charter of cities of the fourth class (Mt. Sterling is a city of the fourth class) provide for the establishment of "Boards of Education." The substance of these sections are as follows: The City Council may at any time pass an ordinance establishing a Board of Education and appoint the members thereof and such appointees will hold their offices until the next regular election following their appointment. This Board of Education would have entire control of all public schools of the city, both white and colored, and they would be required under the law to maintain schools for both white and colored children who resided in the city. The taxes collected for school purposes would all go into one general fund and all public schools in the city would be maintained out of this fund. The colored people of this city pay taxes on an exceedingly small amount of property as compared with the white people and the effect of the passage of such an ordinance would be to tax the white people to keep up the colored schools and the annual tax rate of 30 cts., which the white people now pay under the present system would have to be nearly doubled in order to meet the new obligation of keeping up the colored schools. Under the present arrangement each race supports its own schools and to every fair minded man this arrangement is eminently proper. During the present city administration great pressure was brought to bear on those in control by the principal and trustees of the colored school in this city to establish the Board of Education above referred to, but these efforts were unsuccessful and it is now reported that in consideration of the votes of the two negroes from the Third Ward for certain Republicans for the various offices of this city the Republican nominees for members of the City Council will, if elected, pass an ordinance establishing the Board of Education aforesaid and thus require the white people of the city to put up the funds to run the colored school. Much credence is given to this report because the negro, Bean, who is to be one of the councilmen from the Third Ward is a teacher in the colored school in this city and is a member of the same element of the negroes who attempted to have the present administration pass such an ordinance. The effect of the passage of such an ordinance would be to entirely nullify the present management of the public schools of the city and put it entirely into the hands of this Republican-Negro alliance. Then if Smithville is to be annexed with

X

"It is the duty of every man who would assert that freedom of suffrage guaranteed by the constitution of a liberty-loving people to vote for the Democratic nominees. Insinuations, charges, of lack of ability, of a political compact, of extravagance and other like detrimental illusions through a series of anonymously edited Bulletins, and which have been conclusively refuted by a statement to the public of the city's financial condition, by Mayor Baird is a reason why every law and order citizen should be true to the provisions of the Constitution. A free people will scorn to aid in the anarchical attack behind the false face of "Citizens Committee."

its 200 colored voters the domination of this alliance would be perpetual. The establishment of the Board of Education could never be repealed by any subsequent council and the damage done by the election of one Republican City Council could never be repaired. In several cities of the fourth class these Boards of Education have been established and the white taxpayers in those cities have been required to pay for the education of the negro children. No Democratic Council would ever pass such an ordinance. If the Republicans live up to their present reputation for legislation they will do anything in that line. We enjoy upon every white tax payer of the city a close investigation of this phase of the approaching city election.

The people of Mt. Sterling are Democratic and the voters are Democrats. Should any misfeasance in office occur, should there be extravagance practiced, Democrats who are in the saddle will, within their own lines, make the needed corrections. They would not turn the city affairs over to Republican bosses and politicians who would make any kind of pledges in order to get from without to the within and hold of the city. The taxpayers of Mt. Sterling know how well these test suckers hang on to a pension. In fact, a republican platform is not orthodox without a paragraph relative to the pension system and the pensioned.

WHAT THINK YOU?

President Roosevelt dined with Booker Washington, a southern colored citizen, and the people of the United States are making much ado over the unprecedented action. They are not mindful of the fact that the negro Washington is every whit the equal of the President. It was of the President's own volition, and water never rises above its level.

Kentucky Republicans are making startling charges against local administrations, hoping thereby to divert the minds of the voters from the necessity of electing a Democratic Legislature. Every Democratic, every law-abiding citizen, should vote for Hon. J. N. Greene.

ALWAYS SO.

We would ask the people of this section, some of whom are living, who were active in life's arena at the time of the fraudulent action of a higher tribunal than a State Legislature, to revert to Republican fair count and justice.

Here it is from the lips of an outraged candidate. A gentleman who knows justice and undertakes to conform to his country's laws.

Judge John D. Young, now a resident of this city, than whom there lives none more honest and reliable, says that in 1867 as a Democratic nominee for Congress, he made a race against a republican nominee and defeated him in the district by a majority in round numbers of 1500. The National Election Commission admitted the majority, but claimed the Judge was disqualified because of the charge that he had been disloyal to the Government. Judge Young had ever been a loyal citizen and did not take up arms against the Union. The matter was referred to Congress and without the semblance of proof, the large majorities of Democratic counties were cut sufficiently to make the Republican candidate's majority 240 over Mr. Young's vote. These facts are fresh in the minds of our older citizens and concerning this outrageous act Judge Young says:

"No greater piece of fraud was ever perpetrated against any man."

If the Republicans were in 1867 expert in the fraudulent manipulation of elections, it is no wonder that they resorted to the more extreme measures thirty-two years later, when they found themselves caught up with in fraudulent methods. It is the same Republican party that would be in possession of the legislature, the county offices, the city offices.

If the Republicans are sincere, now that Mayor Baird has made both an explanation and showing of the city's financial condition, they would withdraw all opposition. There is no question of party involved, but if it is the Citizen's Committee want they will continue their insinuations.

W. W. Wilson, a Republican Councilman, has proved himself attentive and watchful of the public trust entrusted to him by the citizens of the third ward, but a few Republicans of that ward, actuated by the desire to please a few political bosses, chief ringsters of that party, are not well enough pleased with his conduct to offer him a second term. Two colored men inexperienced in public affairs, are chosen in his place. Are they a part of the citizen's ticket?

POSSIBLE.

We say the annexation of Smithville by a Republican council is possible. The initiative is by petition from those desiring to be annexed. A Republican council could by a majority vote authorize it, which would be submitted to the circuit court for approval; failing there it could be taken before a Republican Court of Appeals. Can it be done? Is it not probable that a Republican partisan Court of Appeals would approve the action of a Republican city council. The people of Mt. Sterling are too wise to take any chances.

A Third Ward Councilman partly said to a republican neighbor very much interested just now; some Republicans started a tale that some stealing was going on and in a moment all of you were trying to get in and have a hand in stealing. George Baird's statement silenced you and No. 8 bulletin is quite true.

Among numerous inaccuracies in the anonymous bulletins industriously circulated through the mails, for which no one is responsible, is the assertion that the city tax rate amounts to \$2.22 1/2 on the hundred dollars. The city tax rate is 75 cents on each hundred dollars. This is the limit fixed by law. It is true we pay 30 cents on the hundred dollars for school purposes, but this was fixed by the people independent of the regular city tax rate, and over which the City Council has no control whatever.

It was the place of the "Citizens Committee," in the absence of a statement of the financial condition of the city, to call on the clerk, ask for an inspection of the books and from knowledge attained make a correct statement for the benefit of the people. The people will have little confidence in the publications found in a bulletin insinuating in its make up. The people want facts such as can be corroborated by records.

The books of the city of Mt. Sterling are at easy access and Mr. Jones, Clerk, is anxious to show them, with each account, to any taxpayer of Mt. Sterling, who would call on him.

Boy's Foot Crushed.

On Friday at Lexington, Cornelius Stewart, aged 13, while crossing the C. & O. track, got his foot caught between the rail and the board crossing. A freight train was backing in approaching him. He was unable to loose his foot, so threw his body to one side to avoid being killed. The first car passed over and cut off his foot. He then pulled himself from the track.

Another Republican Left.

County Clerk Claud Chinn, of Lexington, notified the official printer not to place the name of H. Clay Wilson on the ballots as candidate for superintendent of county schools on the Republican ticket, pursuant to an injunction granted by the county court to that effect. The reason for the scratching of Mr. Wilson's name is that he does not hold a certificate to teach in the schools of Fayette county nor has he ever passed an examination for the same.

Facts and Observations.

Wild Cat and Possom - Gorjeous Scenery and Stir Off-A "Democrat and Campbellite."

The writer left town on Wednesday afternoon, 2:10 train. We stopped for a few minutes at Rothwell. W. R. Tabor was in Louisville making fall purchases, returning home on Friday.

S. S. Plimley, for eight years a Knight of the Grip, and well known in several counties of Eastern Kentucky, had that morning accepted a position with the Red River Valley Railway Co., succeeding Mr. O. H. G. Hughes, who will, it is said, soon locate in Mt. Sterling.

We had previously ridden on the narrow gauge road to McCausy. The new and charming feature was the gorgeous display of colors in the forest and undergrowth, resplendent in the closing hour of sunshine and until the stars began to appear. The trip was made on an observation car—usually called a flat car—an ideal one for simplicity, sight-seeing and bracing atmosphere, when there is no rain or severe cold.

We spent the night with our cousin, Mrs. John W. Cravens. Here we met Mrs. Sam Cravens, of Montgomery and Lee Cravens, of Bourbon, mother and brother of our host.

Marion Powers, recently a merchant of Freeburg, has taken charge of a hotel at McCausy.

The school is being taught by Squire Needham, whom in childhood we knew at Hazel Green. We observed that the school room is decorated with attractive, modern desks. We spent a few minutes at the sorghum plant, operated by E. E. Cope, the next Sheriff of Menefee county. We failed to ask the daily capacity in barrels.

The forenoon was spent in Freeburg attending to "matters and things in general." (See marriages.) We dined at the Greenwald Hotel. (Now we are reminded of a Montgomery county subscriber, who recently said in substance: "What do I care about where you stay at night or eat dinner? That is most you have in your paper.") We could readily see that something ailed him and sure enough he had not paid his subscription for several years. If he will redeem his promise, his eyes will be opened and he may behold wondrous things, and sleep well at night.

The town was quiet. Cox, the butcher, had killed a beef to supply the demand there and at Seranton and McCausy, if any was unsold in town.

Circuit Court will convene on second Monday in November. We will be there during the week in the interest of the Mt. Sterling Advocate. Come prepared and enlist in the good work—closing up old account and placing your name on our list.

Returning to McCausy we spent the afternoon going to that fork of Indian Creek where Mr. Strong has a mill. We can recommend John Cravens' mare. (See his advertisement.)

Messrs. A. L. French and Lewis Apperson were in the neighborhood.

Mr. Strong was up the creek, his clerk, Mr. Totten, recently killed a wild cat weighing 35 lbs. We saw Mr. Tiffany (not from New York) who operates a saw mill and he will be with us for a year in company with Mr. Totten and a dozen more new men for the Advocate.

John C. Day and the writer trespassed upon Mr. Possum's domain and took some persimmons.

Yes, there will soon be an election in Menefee. The Republicans have only 3 candidates—a Mr. Tackett and a candidate for Jus-

tiace and Constable in one district. We were informed that the county will give the usual majority for Greene, although there has been some "deadening over the line."

Again we spent the night with John Cravens. His baby boy, Charley, is three years old and says he is a Democrat and a Campbellite.

We do not object to the political bent of his mind, but as he is yet too small to understand the significance of the name Campbellite, religiously considered, we trust that by the time he is old enough to fulfill scriptural conditions he will have learned to call himself a Christian—nothing more, nothing less.

Returning on early train to Rothwell we tarried in the regions around until after dinner. Strolling down the way we sweetened ourselves at Luther Riggs's still where Judge Hazelrigg and Wm. Oldham had been killing birds—doves—on the road and we were passengers home.

HORSE AND TRACK.

Dan Patch 2:04 has won all of his 12 starts this season, and paced 24 heats in 2:10 or better, in races.

Fereno still holds the Kentucky Futurity record, not only for the fastest heat, but for the fastest three heats, 2:12, 2:10, 2:12.

During his entire racing career, two seasons, Harold H. 2:04, the Canadian pacer, has started in twenty-four races, won seventeen, been second in five and unplaced in two, winning \$8,362.50, \$6,350 of it this season.

The five year old pacer Sir Albert S. 2:08 is the unbeaten horse of the Pacific coast. He has won five races without losing a single heat. The slowest of the fifteen heats he has won was paced in 2:12, and his fifteen heats was won in 2:09.

George H. Ketchum says he does not expect to drive Crespusculum in 2:00. With horse day and track exactly right, however, he believes the champion trotter can cut the record down to 2:01. Mr. Ketchum is confident that the 2:00 trotter will appear in due time, and he is hopeful that Crespusculum will be the sire of the first one to cross the line.

Peter Stilling, 2:11 1/2 is said, won over \$15,000 in the two races in which he has started this year.

Prince Albert's record at Memphis, in second heat was 2:00 1/2.

Lost Money.

The decision of the directors to close the Pan-American Exposition on the night of November 2 enables the accountants to make a fairly accurate estimate of the loss which the Pan-American will suffer. It will exceed \$4,000,000. The stockholders will receive back nothing for the \$2,500,000 which they put in. Contractors who built the exposition will lose \$1,000,000, and the issue of \$500,000 second mortgage bonds will be defaulted, as well as 20 per cent. of the first mortgage bonds.

To Prison for Life, the Verdict Against Caleb Powers.

The case against Caleb Powers, or complicity in the murder of Wm. Goebel was given to the jury at Georgetown on Saturday at 2:30 p. m. At 3:10 the jury returned the following verdict:

"We the jury find the defendant guilty and fix his punishment at confinement in the penitentiary for the term of his natural life."

D. S. CALVERT, Foreman.

"Each juror had his name called and answered that the above was his verdict. Powers never moved during the reading of the sentence and the polling of the jury. When the verdict sentencing Caleb Powers to life imprisonment was read, the two women were seated in the court room and several women kissed him, while others shook his hands."

"Judge Sims asked time to file a motion for a new trial and was given till 4:30 o'clock p. m. after noon."

J. B. Calvert, foreman of the jury, was an old schoolmate of Powers at the State College at Lexington, and Powers eyed him closely while the verdict was being read.

Judge Cantrill polled the jury after the verdict was returned and each of the twelve men said that the finding was his.

Judge Sims asked for time to file a motion for a new trial. Judge Cantrill gave him till 4:30 o'clock and at that hour it was filed without argument. The reasons set forth in the motion were that the trial Judge had refused to vacate the bench; that he had refused to grant a continuance of the case; that the jury was unfairly selected, and that incompetent testimony was admitted.

At 5:20 o'clock Judge Cantrill overruled the motion, and turning to Powers, said:

"Caleb Powers, stand up. Have you any reasons to give why sentence should not now be passed upon you?"

Powers replied that he had reasons, but they were not debatable. He was then sentenced to the Frankfort penitentiary for life.

Judge Sims then asked that the court set a time for the filing of a bill of exceptions. The first day of the February term of the Scott County Circuit Court was set. Judge Cantrill then ordered the prisoner removed to the Franklin county jail. Judge Sims asked that he be sent to Louisville.

Judge Cantrill said he could not comply with the request. Powers was then taken to jail, where he packed his clothing and later marched to the Kentucky Midland depot, surrounded by six deputy sheriffs and shortly after 6 o'clock the train pulled out for Frankfort. Before leaving Powers told the newspaper men that he was innocent and would fight for his freedom until he died.

"I shall appeal my case," he said, as the train pulled out.

Facts and Observations.

Wild Cat and Possum - Gorgeous Scenery and Stir Off - A "Democrat and Cambellite."

The writer left town on Wednesday morning, 2:10 train. We stopped for a few minutes at Louisville. W. R. Tabor was in Louisville making full purchases, returning home on Friday.

S. S. Pinney, for eight years a Knight of the Grip and well known in several counties of Eastern Kentucky, had that morning accepted a position with the Red River Valley Railway Co., succeeding Mr. O. H. G. Hughart, who will, it is said, soon locate in Mt. Sterling.

We had previously ridden on the narrow gauge road to McAusey. The new and charming feature was the gorgeous display of colors in forestry and undergrowth, resplendent in the closing hour of sunshine and until the stars began to appear. The trip was made on an observation car—usually called a flat car—an ideal one for simplicity, sight-seeing and bracing atmosphere, when there is no rain or severe cold.

We spent the night with our cousin, Mrs. John W. Cravens. Here we met Mrs. Ann Cravens, of Montgomery and Lee Cravens, of Bourbon, mother and brother of our host.

Marion Powers, recently a merchant of Frenchburg, has taken charge of a hotel at McAusey.

The school is being taught by Squire Needham, who in childhood we knew at Hazel Green. We observed that the school room is seated with attractive, modern desks. We spent a few minutes at the sorghum plant, operated by E. E. Cope, the next Sheriff of Menefee county. We failed to ask the daily capacity in barrels.

The forenoon was spent in Frenchburg attending to "matters and things in general." (See marriages.) We dined at the Greenwald Hotel. (Now we are reminded of a Montgomery county subscriber, who recently said in substance: "What do I care about where you stay at night or eat dinner? That is most you have in your paper." We could readily see that something ailed him and sure enough he had not paid his subscription for several years. If he will redeem his promise, his eyes will be opened and he may behold wondrous things, and sleep well at night.)

The town was quiet. Cas, the butcher, had killed a beef to supply the demand there and at Stanton and McAusey, if any was unsold in town.

Circuit Court will convene on second Monday in November. We will be there during the week in the interest of the Mr. Sterling Advocate. Come prepared and enlist in the good work—closing up old account and placing your name on our list.

Returning to McAusey we spent the afternoon going to that fork of Indian Creek where Mr. Strong has a mill. We can recommend John Cravens' mare. (See his advertisement.)

Messrs. A. L. French and Lewis Apperson were in the neighborhood.

Mr. Strong was up the creek. His clerk, Mr. Totten, recently killed a wild cat weighing 35 lbs. We saw Mr. Tiffany (not from New York) who operates a saw mill and he will be with us for a year in company with Mr. Totten and a dozen new men for the Advocate.

John C. Day and the writer traversed upon Mr. Possum's domain and took some possums.

Yes, there will soon be an election in Menefee. The Republicans have only 3 candidates—Mr. Tackett and a candidate for Jus-

tice and Constable in one district. We were informed that the county will give the usual majority for Greene, although there has been some "slandering over the line."

Again we spent the night with John Cravens. His baby boy, Charley, is three years old and says he is a Democrat and a Campbellite.

We do not object to the political bent of his mind, but as he is yet too small to understand the significance of the name Campbellite, religiously considered, we trust that by the time he is old enough to fulfill scriptural conditions he will have learned to call himself a Christian—nothing more, nothing less.

Returning on early train to Rothwell we tarried in the regions around until after dinner. Strolling down the way we encountered ourselves at Luther Riffe's stir of Judge Hazelrigg and Wm. Oldham had been killing birds—doves—on the road and we were passengers home.

HORSE AND TRUCK.

Dan Patch 2:04 has won all of his 12 starts this season, and paced 24 heats in 2:10 or better, in races.

Pereno still holds the Kentucky Futurity record, not only for the fastest heat, but for the fastest three heats, 2:12; 2:10; 2:12.

During his entire racing career, two seasons, Harold H. 2:04, the Canadian pacer, has started in twenty-four races, won seventeen, been second in five and unplaced in two, winning \$8,362.50, \$6,250 of it this season.

The five year old pacer Sir Albert S. 2:08 1/2 is the unbeaten horse of the Pacific coast. He has won five races without losing a single heat. The slowest of the fifteen heats he has won was paced in 2:12; and his fifteenth heat was won in 2:09 1/2.

George H. Ketchum says he does not expect to drive Creasecup mile in 2:00. With horse and truck exactly right, however, he believes the champion trotter can cut the record down to 2:01. Mr. Ketchum is confident that the 2:00 trotter will appear in due time, and he is confident that Creasecup will be the first of the first one to make the mile.

Peter Stilling, 2:14 1/2 is the slide, won over \$15,000 in the two races in which he has started this year.

Prince Albert's record at Menefee, in second heat, was 2:00 1/2.

The decision of the directors to close the Pan-American Exposition on the night of November 2 enables the accountants to make a fairly accurate estimate of the loss which the Pan-American will suffer. MAYOR BAIRD TALKS.
Every Statement Smacks the Bul-
letin Makers in the Face.

His term of office began January,
1898. The annual licenses have
been collected and paid over showed
a balance in the treasury of \$9,
653.37. Against this were out-
standing claims as follows:
In favor of Mrs. Addie
Jefferson \$2,025.41
Tully 545.10
Compromise claim of C. G.
Thompson and Thos. C.
Welch 1,042.82
Repairing of fire engines 2,509.60
New hose purchased 806.00
Outstanding vouchers 1,838.96

Total \$8,761.89
This shows a difference between
assets and liabilities of \$901.48, in-
stead of the enormous sum of near-
ly \$10,000.

Mr. Baird also informs the tax-
payers that the tax books for the
year 1901 are in the hands of the
collector and when the taxes of
1901 and the licenses for 1902 have
been paid in, all outstanding vot-
ers will be paid and there will be a
balance in the treasury of about
\$2,500. Is not this a better show-
ing than that of 1898?

This in face of the fact that four
years prior to 1898 the tax rate
was 65-3-4 cents and our average
has been 53-1-4 cents; that the
city has kept up between 4 and
5 miles of street which was former-
ly cared for by turnpike companies.
During the period of my office we
have had to contend against the
spread of small pox brought here
by a negro from Richmond. This
cost was \$1,855.85. The construction
of two iron bridges, one over
Hinkston on the Spencer pike, an-
other over same creek on Queen
street and a steel covering for the
fire cistern cost the city \$845.

Could the people of Mt. Sterling
hope for a better showing than
this?

The city books are open for in-
spection of all interested citizens.

Wild Dash for Freedom.
George Parker, alias "Butch
Cassidy," one of the most desperate
characters in the West, who is be-
lieved to have been implicated in
the robbery of the Great Northern
express train near Wagner, Mont.,
last June, fought his way clear of
two city detectives in Nashville
Sunday and after a thrilling chase,
made his escape. In his race for
liberty he utilized a two horse wag-
on team, a horse and buggy and a
riding horse, all forcibly taken,
while two dead bloodhounds marked
the first portion of his trail. The
man threw away a wallet contain-
ing \$1,040 in ten and twenty-dol-
lar bills of the Montana Bank.

Howard's Mill went to Pelee Oak

sisted of the following: Mrs. Scot-
tish Welsh, Mrs. Ida Knox, Misses
Mary and Lizzie Belford, Lillian
Ramey and Mary Greenwald.

RELIGIOUS

The meeting at the High Street
Colored Christian Church closed on
Sunday evening. Rev. S. R. Cotter
of Hopkinsville has been here for
three weeks. The attendance has
been large. There were 47 con
fessions and baptism and 16 other
additions. He is said to be an elo
quent speaker. He began a meet
ing at Corinth on last night. He
uses charts and black-board in il
lustrating his sermons.

The protected meeting at the
Baptist Church conducted by
Pastor W. J. Bolin closed Mon
day evening with 10 additions.
Mr. Bolin left this morning for
Stone Lick to begin a two weeks
meeting. We have never heard
more thoughtful sermons more
powerfully presented.

The annual sermon of the A.
O. U. W. was preached at the
Baptist church Sunday evening by
the pastor. A large congregation
and fine sermon. We will pro
duce it next week.

Rev. Lindsay, of Flemingsburg,

MAYOR BAIRD TALKS.

Every Statement Smacks the Bul
letin Makers in the Face.

His term of office began January,
1898. The annual licenses having
been collected and paid over showed
a balance in the treasury of \$9,
633.37. Against this were out
standing claims as follows:
In favor of Mrs. Addie
Jeppson \$2,025.41
Judgment of Mrs. Bridget
Tully 545.10
Compromise claim of C. G.
Thompson and Tiam, C.
Welch 1,042.82
Repairing of fire engines 2,509.60
New hose purchased 800.00
Outstanding vouchers 1,838.96
Total \$8,761.89

This shows a difference between
assets and liabilities of \$901.48, in
stead of the enormous sum of near
ly \$10,000.
Mr. Baird also informs the tax
payers that the tax books for the
year 1901 are in the hands of the
collector and when the taxes of
1901 and the licenses for 1902 have
been paid in, all outstanding vouchers
will be paid and there will be a
balance in the treasury of about
\$2,500. Is not this a better show
ing than that of 1898?

This is in face of the fact that four
years prior to 1898 the tax rate
was 65 cents and our average
has been 53 1/4 cents; that the
city has kept up between 4 and
5 miles of street which was former
ly cared for by turnpike companies.
During the period of my office we
have had to contend against the
spread of small pox brought here
by a negro from Richmond. This
cost was \$1,555.85. The construction
of two iron bridges, one over
Hinkston on the Spencer pike, an
other over same creek on Queen
street and a steel covering for the
fire cistern cost the city \$845.

Could the people of Mt. Sterling
hope for a better showing than
this?

The city books are open for in
spection of all interested citizens.

Wild Dash for Freedom.

George Parker, alias "Butch
Cassidy," one of the most desperate
characters in the West, who is be
lieved to have been implicated in
the robbery of the Great Northern
express train near Wagner, Mont.,
last June, fought his way clear of
two city detectives in Nashville
Sunday and after a thrilling chase,
made his escape. In his race for
liberty he utilized a two horse wag
on team, a horse and buggy and a
riding horse, all forcibly taken,
while two dead bloodhounds marked
the first portion of his trail. The
man threw away a wallet contain
ing \$1,040 in ten and twenty-dol
lar bills of the Montana Bank.

A Fine Time.

On Sunday a jolly crowd from
Levee, Canagha, Jeffersonville and
Howard's Mill went to Peck Oak
chestnut hunting. The party con
sisted of the following: Mrs. Scott
Welsh, Mrs. Ida Knox, Misses
Mary and Lizzie Bedford, Lillian
Ramsey and Mary Greenwald,
Messrs. Lewis Knox, Miller Ander
son, Arthur Barnes, Marshall
Myers, Matt Knox, Walter Wright,
John McCormick and Will Reed.
